

# PERKINS GENERATOR

114 KVA ( 91 KW )

(UK)

# 1100 Series 1104C-44TAG2 Diesel Engine – ElectropaK

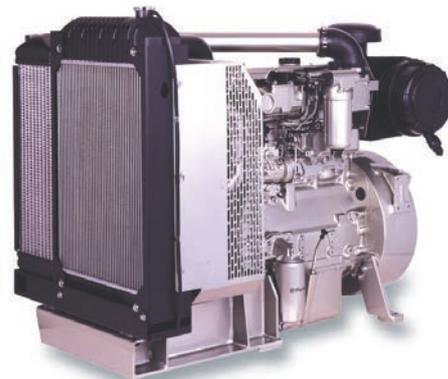

112.4 kWm @ 1800 rpm

Building upon Perkins proven reputation within the power generation industry, the Perkins® 1100 Series range of ElectropaK engines now fit even closer to the needs of their customers.

With this 1104C-44TAG2 unit, Perkins has engineered for its customers even higher levels of reliability, yet lowered the cost of ownership with six cylinder capability from a four cylinder package performance. Crucially, bare engine noise is lower than ever before.

Rapid starting and pick-up are naturally built-in especially for cold operation, but where legislation or local markets demand an emissions capability, then the 1104C-44TAG2 satisfies EU 2007 Stage II mobile off-highway legislation; and also complies to TA Luft (1986) regulations.

1100 Series see the marriage of technology to customer need. A 4.4 litre unit very quietly setting a new standard in prime power supply and standby for the power generation industry.

## Emissions

Certified against the requirements of EU 2007 (EU 97/68/EC Stage II) legislation for non-road mobile machinery, powered by constant speed engines.

Specification		
Number of cylinders	4 vertical in-line	
Bore and stroke	105 x 127 mm	4.3 x 5.0 in
Displacement	4.41 litres	269 in <sup>3</sup>
Aspiration	Turbocharged, air to air charge cooled	
Cycle	4 stroke	
Combustion system	Direct injection	
Compression ratio	18.2:1	
Rotation	Anti-clockwise, viewed on flywheel	
Total lubricating capacity	8.0 litres	2.1 US gal
Cooling system	Water-cooled	
Total coolant capacity	12.6 litres	3.3 US gal

THE HEART OF EVERY GREAT MACHINE

# 1100 Series 1104C-44TAG2 Diesel Engine – Electropak

112.4 kWm @ 1800 rpm

## Features and benefits

### Compact and efficient power

- The Perkins 1100 Series family was developed following an intensive period of customer research. The 3.3 and 4.4 litre engines feature new cylinder blocks which ensure bore roundness is maintained under the pressures of operation, as well as significantly reducing mechanical and combustion noise. A new cross-flow cylinder head design optimises combustion control, and combines with turbocharger and charge cooler technology to achieve the best combination of power delivery and low exhaust emissions

### Cleaner and quieter power

- The refined structure of the 1100C range leads to an exceptionally low noise signature. To meet environmental needs swirl conditioned air is delivered through the new cross-flow cylinder head, and burns cleanly with the high pressure fuel from an advanced technology rotary pump

### Cost effective power

- The compact packaging and low noise performance of the 1100C range bring clear benefits to the Genset packager. Low cost of operation is assured by lower fuel and oil consumption and 500 hour service intervals
- **Warranties and Service Contracts**  
We provide one-year warranties for constant speed engines and two-year warranties for variable speed models, as standard. These are supported by multilevel Extended Service Contracts that can be bought additionally

### Product support

- Perkins actively pursues product support excellence by ensuring our distribution network invest in their territory – strengthening relationships and providing more value to you, our customer
- Through an experienced global network of distributors and dealers, fully trained engine experts deliver total service support around the clock, 365 days a year. They have a comprehensive suite of web based tools at their fingertips covering technical information, parts identification and ordering systems, all dedicated to maximising the productivity of your engine
- Throughout the entire life of a Perkins engine, we provide access to genuine OE specification parts and service. We give 100% reassurance that you receive the very best in terms of quality for lowest possible cost .. wherever your Perkins powered machine is operating in the world
- To find your local distributor: [www.perkins.com/distributor](http://www.perkins.com/distributor)

THE HEART OF EVERY GREAT MACHINE

# 1100 Series 1104C-44TAG2 Diesel Engine – ElectropaK

112.4 kWm @ 1800 rpm

## Technical information

### Air inlet

- Mounted air filter

### Fuel system

- Rotary type pump
- EcoPlus fuel filter

### Lubrication system

- Wet cast iron sump with filler and dipstick
- Spin-on oil filter

### Cooling system

- Thermostatically-controlled system with gear-driven circulation pump and belt-driven pusher fan
- Mounted radiator and piping incorporating air-to-air charge cooler

### Electrical equipment

- 12 volt starter motor and 12 volt 65 amp alternator with DC output
- 12 volt shutdown solenoid energised to run
- Glow plug cold start aid

### Flywheel and housing

- Flywheel to SAE J620 size 10/11½
- SAE 3 flywheel housing

### Literature

- User's Handbook

### Optional equipment

- 24 volt alternator
- 24 volt starter motor
- Workshop manual
- Parts book

THE HEART OF EVERY GREAT MACHINE

# 1100 Series 1104C-44TAG2 Diesel Engine – ElectropaK

112.4 kWm @ 1800 rpm

Speed rpm	Type of operation	Typical generator output (Net)		Engine power			
				Gross		Net	
		kVA	kWe	kWm	hp	kWm	hp
1800	Prime power	114.4	91.5	106.8	143.2	101.7	136.3
	Standby (maximum)	126.5	101.2	117.5	157.5	112.4	150.7

The above ratings represent the engine performance capabilities to conditions specified in ISO 8528/1, ISO 3046/1:1986, BS 5514/1. Derating may be required for conditions outside these; consult Perkins Engines Company Limited.

Generator powers are typical and are based on typical alternator efficiencies and a power factor and a power factor (cos  $\theta$ ) of 0.8.

Fuel specification: BS 2869 Class 2 or ASTM D975 D2. Lubricating oil: API CH4/ACEA E5.

#### Rating definitions

**Prime power:** Power available for variable load in lieu of a main power network. Overload of 10% permitted for 1 hour in every 12 hours operation.

**Standby (maximum):** Power available at variable load in the event of a main power network failure. No overload is permitted.

Percent of prime power	Fuel consumption at 1800 rpm g/kWh	Fuel consumption at 1800 rpm l/hr
Standby (maximum)	214	29.7
Prime power	218	26.9
75%	218	20.2
50%	228	14.1

THE HEART OF EVERY GREAT MACHINE

**TAL 044**

## **Low Voltage Alternator - 4 pole**

Three-phase 70 to 165 kVA - 50 Hz / 88 to 206 kVA - 60 Hz  
Dedicated single-phase 57 to 82 kVA - 50 Hz / 80 to 125 kVA - 60 Hz  
Electrical and mechanical data

**LEROY-SOMER**<sup>™</sup>

***Nidec***  
All for dreams

# TAL 044 - Three-phase & Single-phase

## Adapted to needs

The TAL alternator range is designed to meet the needs of general applications such as prime power and stand-by.

## Compliant with international standards

The TAL range complies with international standards and regulations: IEC 60034 and derivative.

The range is designed, manufactured and marketed in an ISO 9001 and 14001 environment.

## Electrical design

- Class H insulation
- Shunt excitation
- Low voltage winding:
  - Three-phase 50 Hz: 380V - 400V - 415V - 440V / 220V - 230V - 240V
  - 60 Hz: 380V - 416V - 440V - 480V / 220V - 208V - 240V
- Single-phase 50 Hz: 230V
- 60 Hz: 240V
- 4-terminal plates in 6-wire version
- Optimized performance

## Robust design

- Compact and rugged assembly to withstand engine vibrations
- Steel frame
- Aluminum flanges and shields
- Single bearing design compatible with most diesel engines
- Sealed for life single bearing
- Direction of rotation: clockwise and counterclockwise without derating

## Excitation and regulation system suited to the application

	Excitation system				Regulation options		
	AVR	Shunt	AREP	PMG	ULC/US	Remote voltage potentiometer	C.T. for paralleling
Three-phase 6-wire	R120	Standard					
	R150	Option				√	
	R180		Standard	Standard		√	√
	R438		Option	Option	√	√	√
Three-phase 12-wire	R120	Standard					
	R250	Option			√	√	
	R180		Standard	Standard		√	√
	R438		Option	Option	√	√	√
Single-phase	R121	Standard				√	
	R250	Option			√	√	

√: Possible option

## Compact terminal box

- Easy access to AVR and terminals
- Possibility of current transformer for parallel operation

## Environment and protection

- IP Code IP 23
- Standard winding protection for non-harsh environment with relative humidity  $\leq 95\%$

## Available options

- Three-phase 12-wire with 8-terminal plates
- AREP or PMG excitation
- ULC/us
- Customized painting (machine not painted as standard)
- Space heaters
- Flying leads
- Droop kit for alternator paralleling
- Dedicated single-phase
- Stator sensors
- Winding 8 optimized for three-phase 380V / 416V - 60Hz
- Winding protection for harsh environments and relative humidity greater than 95% (system 2 - 4 without derating): for TAL 044 K apply a derating coefficient of 0.97

# TAL 044 - Three-phase 70 to 165 kVA - 50 Hz / 88 to 206 kVA - 60 Hz

## General characteristics

Insulation class	H	Excitation system 6-wire	SHUNT	AREP

# InteliLite<sup>NT</sup> AMF 9

## SINGLE SET GEN-SET CONTROLLER

### Description

The InteliLite<sup>NT</sup> AMF 9 is integrated controller for gen-sets operating in single standby mode.

The controller meets all requirements for Auto Mains Failure (AMF) applications including remote communication and internet control, user configuration and complete gen-set monitoring and protection.

InteliLite<sup>NT</sup> AMF 9 is easy to use with a simple intuitive user interface and graphic display. Unit is designed for quick and cost saving commissioning and bring seamless integration with the latest breed of EFI diesel engines from all major manufacturers. This offers a higher level of functionality with users able to display a comprehensive range of values from the EFI engine on standard analog gauges and true RMS measurement of electric values.

### Benefits

- ▶ Less wiring and components
- ▶ Less engineering and programming
- ▶ Cost saving commissioning
- ▶ Remote monitoring reduced call-out costs of service engineers
- ▶ History 100+ records based on running hours
- ▶ Hybrid binary inputs and outputs module – simple way of extension the unit performance
- ▶ SMS on alarm/event
- ▶ Direct communication with EFI engines
- ▶ Perfect price/performance ratio

#### InteliLite<sup>NT</sup> AMF 9 supports J1939 for all major brands:

- |                  |              |           |                          |
|------------------|--------------|-----------|--------------------------|
| • Caterpillar    | • GM         | • MAN     | • Sisu                   |
| • Cummins        | • Isuzu      | • MTU     | • VM Motori              |
| • Detroit Diesel | • Iveco      | • Perkins | • Volvo Penta and others |
| • Deutz          | • John Deere | • Scania  |                          |

ComAp is a member of AMPS (The Association of Manufacturers of Power generating Systems).

ComAp products meet the highest standards, with every stage of production undertaken in accordance with the ISO certification obtained in 1998.

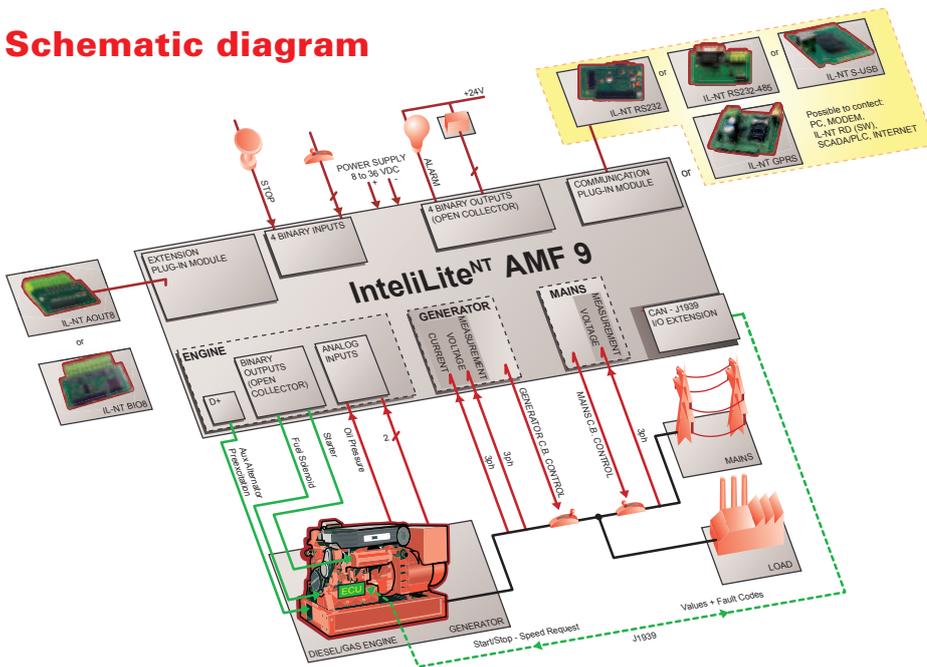

## Features

- ▶ **3 phase AMF function**
  - Over/Under frequency
  - Over/Under voltage
- ▶ **3 phase generator protections**
  - Over/Under frequency
  - Over/Under voltage
  - Over current
- ▶ **True RMS Voltage measurement**
  - 3 phase generator voltages:
    - Phase to neutral  
L1 – N, L2 – N, L3 – N
    - Phase to phase  
L1 – L2, L2 – L3, L3 – L1
  - 3 phase mains voltages
  - Voltage range 277 V p-n, 480 V p-p
  - Maximal measured voltage 300 V p-n
- ▶ **True RMS current measurements**
  - 3 generator phase currents
  - Current range 5 A
  - Maximal measured current 10 A
  - Ready for generators with 3 ph 4 wires / 3 ph 3 wires / Split ph / Mono ph
- ▶ **Event and performance log**
  - Gen-set text alarm log
  - Engine hours history log
  - ECU text alarm log
  - Test Run scheduler
- ▶ **Power measurements**
  - Apparent power per phase
  - Total apparent power
- ▶ **User interface**
  - Graphic 128 x 64 pixels display
  - 2 languages, user changeable from PC
  - Setpoints adjustable via controller buttons or PC
  - Buttons with mechanical feedback
- ▶ **Inputs and outputs**
  - 3 fully configurable analog inputs
  - 4 binary inputs; 6 binary outputs
  - D+ preexcitation terminal
  - Optional 8 hybrid binary inputs/outputs
  - Optional 8 analog gauge drive outputs, compatible with VDO, Datcon gauges
- ▶ **EFI engine support**
  - Cummins Modbus
  - Engine specific J1939 for all major manufacturers (see table on page 1)
  - Diagnostic messages in plain text
- ▶ **Engine protections**
  - Oil pressure protection
  - Coolant temperature
  - Fuel level
- ▶ **Active calls**
  - 1 channel
  - SMS alarm
  - Event SMS
- ▶ **Miscellaneous features**
  - Operation mode  
– AMF/MRS application switch
  - Maintenance – service time counter
  - Engine hours counter
- ▶ **Communication interfaces**
  - Optional RS232, RS485 (including Modem support) or USB plug-in interface
  - Optional GSM modem via IL-NT GPRS
- ▶ **Mechanical and operation parameters**
  - Unit dimension 120 x 180 mm
  - Sealed front face rated for IP65
  - Hard plexiglass LCD cover
  - Operation temperature:
    - -20 °C to +70 °C standard version
    - -40 °C to +70 °C low temperature ver.
  - Power supply voltage 8–36 V
  - Voltage drops shorter than 50 ms do not affect operation

ANSI code	Protection
59	Overvoltage
27	Undervoltage
81H	Overfrequency
81L	Underfrequency
50+51	Overcurrent*
47	Phase rotation**
71	Gas (Fuel) level
